

# Hospitality Solutions

We Engineer Based Upon  
Your Imagination

## ◆ Pallas Tablet PC E1

### 10.1" Tablet PC

- Intel® Bay Trail Quad Core Energy Efficient Z3735F CPU
- 10.1" PCAP touch screen with IP54 waterproof certification
- Ready for Payment! IC Card Reader certified by EMV L1/ L2
- Support encrypted MSR, key injection for payment
- Real-time data transmission by Wi-Fi / Bluetooth
- USB charging cradle for Mobile POS usage
- Optional Available: MSR/IC Card reader (Combo module), NFC
- Windows OS / Android Platform allows seamless integration

## ◆ Pallas Tablet PC E2 Series

### 7"/10.1" Tablet PC

- Intel® Bay Trail Quad Core Energy Efficient Z3735F CPU
- 7" & 10.1" P-Cap touch screen with IP54 waterproof certification
- Windows OS/ Android Available
- Real-time data transmission by 3G/ WiFi/ Bluetooth
- 8,000mAh swappable battery for heavy work operations
- Built-in Integrated MSR, 5MP camera, NFC Module
- Optional Modules Available: Chip-and-PIN reader, Finger printer, 1D / 2D QR Code Scanner, 3G Module
- PB45 I/O Expansion Cradle gives additional connectivity
- Hand strap and holster to ensure security

## ◆ Vesta Panel PC VPC15 / VPC19 Series

### 15" / 19" Multi-application Panel PC

- Full range of CPU from Intel® Bay Trail J1900 / Ivy Bridge Mobile i3 Fanless to high end computing i3/i5
- 15" or 19" True Flat P-Cap Touch Screen
- HDD or SSD storage option
- Modular designed Panel PC to satisfy multi-scenario requirements
- Extensive Peripheral Connectivity – MSR, iButton, SCR, Fingerprint, RFID
- 10.4" 2nd Display Stylish and durable Aluminum chassis with Fanless Heat Elimination
- IP66 Front Panel Waterproof

Windows

Android

## ◆ JunoPOS JPOS-210

### 14" Superior POS System

- Intel® Bay Trail Quad Core Energy Efficient Z3735F CPU
- 14" 16:9 True flat wide P-Cap touch screen (front panel IP66)
- Integrated SD card local backup combined with disk imaging software
- 1 x 24V, 1 x 12V Powered USB for retail peripherals
- Able to be driven by an external power bank for uninterrupted service
- Peripherals compatibility: LCM, 10.1" 2nd display, 2nd Cradle, MSR, iButton, Fingerprint, RFID
- Lightweight, die-cast aluminum chassis with an aesthetic design
- Optional color case to match the individual shop design

## ◆ True Flat Touch Display TFD-800 Series

### 8"/10.4"/15"/18.5" True Flat Touch Display

- 8"/10.4"/15"/18.5" True Flat Touch Display
- P-CAP Multi-Touch
- Detachable Stand / Supports VESA mounting
- Flexible Design for Versatile Applications
- Easy Maintenance
- Elegant and Modern Design
- Spill Proof & Anti-Dust
- True Flat Designed to Suit Harsh Environment

# About EFCO

Established in 1992, a well-known innovative company in embedded computing technology is committed to the design and manufacture of Customized Embedded Systems and a forerunner in Providing IoT Solutions. Headquartered in Taipei, Taiwan with a 2,500m<sup>2</sup> and ISO9001/13485 Certified Manufacturing Facility featuring a High Level Assembly Production Center.

EFCO have earned a reputation for quality and reliability offering extremely high flexibility on service and pursuing engineered solutions based upon customer's imagination with advanced production and exceptional manufacturing efficiency. EFCO have been providing the right products/solutions for multiple industries including Gaming, Digital Signage, Smart Factory, Smart Transportation, Health Care, Security Control and Automation over the past 25 years.

In terms of Corporate Social Responsibility, EFCO strives for sustainable development without causing detriment to the environment and continues to be an advocate of Environmental Protection. EFCO has subsidiaries in Germany and the United States, an office in the United Kingdom and a partner network in 12 countries world-wide.
